

The screenshot displays an IDE interface with three main panels. The top-left panel is a 'Commit' window showing a 'First Commit' with one file, 'misc.xml', and buttons for 'Commit' and 'Commit and Push...'. The top-right panel shows a Python script 'variablefun.py' with the following code:

```
10 answer1 = x0 / x1
11 answer3 = x3 // x4
12 answer4 = x5 + x6
13 answer5 = x5 - x7
14 print("The answer to your query is", answer1)
15 print("The answer to your query is", answer2)
16 print("The answer to your query is", int(answer2))
17 print("The answer to your query is", answer3)
18 print("The answer to your query is", answer4)
19 print("The answer to your query is", answer5)
20 print("Rafhael Sanches Montenegro da Cunha")
```

The bottom panel shows the 'Run' output for 'variablefun.py', displaying the following text:

```
The answer to your query is 30
The answer to your query is 2.6666666666666665
The answer to your query is 2
The answer to your query is 2
The answer to your query is 4323090
The answer to your query is 4292367
Rafhael Sanches Montenegro da Cunha
```
